FEATURED INGREDIENTS & KEY BENEFITS

Rose Extract & Grape Extract

*Clinically Shown to Support Your Skin Health\**

Your skin produces free radicals with oxidation. They cause damages to the intracellular deoxyribonucleic acid, and accelerate the aging process. Two key ingredients of MIRIKEL QualiTen, Rose Extract and Grape Extract, are clinically shown to support skin health. Studies show that rose extract has anti-inflammatory benefits and can help to soothe the skin. Grape extract is known to reduce the effects of oxidation and may enhance the skin's collagen production. MIRIKEL QualiTen works to amplify your natural beauty from within.\*

Mixed Berries

*Clinically Tested to Support the Cardiovascular System\**

Cardiovascular disease is the leading cause of serious medical conditions around the world. Unhealthy lifestyles (including excessive smoking, alcoholism, irregular diet, and lack of exercise) can lead to damaged blood vessels, vascular occlusion and induce cardiac disease. QualiTen contains Mixed Berries that are clinically tested to benefit your cardiovascular system, keeping you full of energy.\*

Coenzyme Q10

*Clinically Studied to Enhance Blood Circulation and Protect Blood Vessels\**

An unhealthy diet can cause blood clots, which may lead to shortness of breath, muscle cramps, and pain in your limbs. To combat these issues, QualiTen has added Coenzyme Q10 which is clinically studied to enhance blood circulation and protect your blood vessels.\*
