MIRIKEL™

THE MIRACLE OF LIFE

# WHY SUPPLEMENTS?

Every day, we need a variety of nutrients to stay healthy, including vitamin A, C and D, calcium, magnesium, potassium, and fiber. However, modern Western diets often lack some of these essential nutrients. Besides, there are some beneficial ingredients that you cannot get or get enough from commonly consumed plant foods, especially for those who are on a strict vegetarian or vegan diet. Therefore, we need supplements to bridge the nutritional gap.
