Victor Lim & Lucy Sun

Before joining YiJia, we lived an ordinary life, but we wanted more than that. After we realized that YiJia could change people's lives, we decided to work on it in full force. There is no free lunch in this world. It is not easy to be successful at YiJia. Our fellow members have to work on three points: 1. Always have good preparation, so that your clients will have confidence in you; 2. Always remember not to be anxious because the business at YiJia is never-ending and needs constant learning; 3. The business at YiJia has no particular secret. Just follow the procedures, and you will succeed.

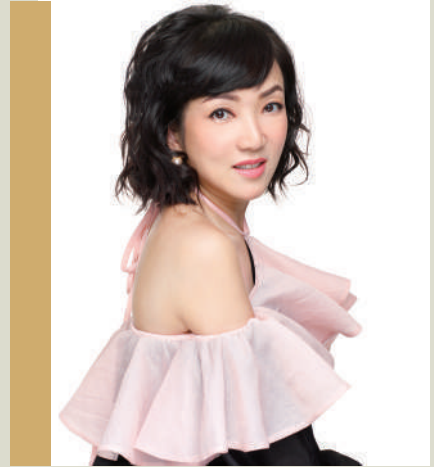

Being a woman, it was said that if you married a good husband, you would have a fulfilling life. But we believe that being a housewife has the least guarantee in the world. Running a business at YiJia does not require a lot of time. It is challenging to take care of children, and after they are all grown, it will be too late for us to plan a new life. The business at YiJia is to convey love. Here, we changed our destiny, learned to share and as a result helped change the future of another person or another family. We helped many families to become free of financial worries and live a quality life. This is the way to convey love, and this is why we persisted in driving our business at YiJia.

YiJia has excellent products, a good platform, and Chairman Guo, is, without a doubt, a sincere leader full of universal love and very generous with his money. He concentrates in nurturing us. We should genuinely cherish this and persist on doing well. Being in the business with YiJia, we enrich ourselves, create a harmonious family. This business is suitable for everyone. If we can do it, anyone can do it. We don't just reclaim our dreams but secured our time and financial freedom created a happy, harmonious blessed family life and led more people to success.

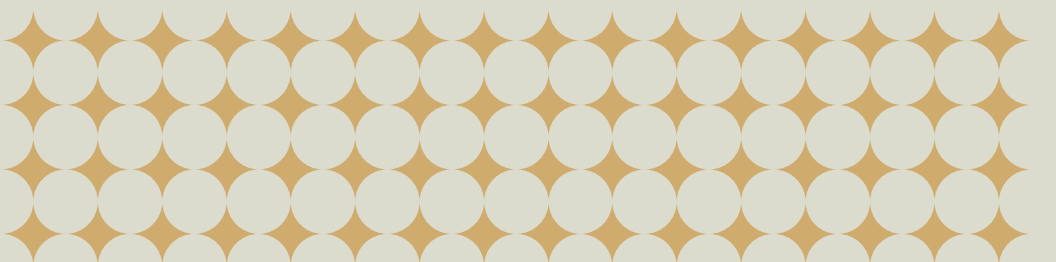

Angel Yip

Since I was twelve years old, I had been working as a toy store seller, a grocery store stock clerk, a fashion store salesperson, an immigration civil servant, and a health food store promoter. Over the years, I worked for other people, endured bullying from bosses and colleagues, meeting endless quotas being others' money-making machine. Since I refuse to have my life controlled by others and that I long to have time and financial freedom, a friend and I pulled our resources together and opened two beauty salons. However, we failed in our venture. At the lowest point in my life, I have only HK\$ 7000 in my pocket. That's when I met YiJia and MAIONE products that changed my life.

After two weeks of working at the Company, I sold over 200 bottles of MAIONE Youth Original Essence and made my first ever HK\$90,000. Seventy days later, I made HK\$700,000; four months later, HK\$11,000,000; one and a half years later, HK\$35,000,000; three years later, HK\$45,000,000. Until now, in four and a half years, my Angel Group team is close to 50,000 members, nurtured 17 Crown Ambassadors, and in 2018, I became the number 1 Global Crown Ambassador. All these enabled me to clear all my debts, own 11 properties in Hong Kong, and have a worry-free life working with my Triple Crown Ambassador parents and brother, enjoying countless luxurious tours with my family. Thank you, Mr. Guo, for making my dream come true!

CROWN
AMBASSADORS**

Barry Chan & Amy Luan

Five years ago, my wife and I returned to Hong Kong with MAIONE Youth Original Essence and determined to develop in the YiJia business, a career full of love and beauty. We faced a lot of challenges. " We never heard of the MAIONE Advanced Youth Original Essence (the spray). How can we trust you when the company doesn't even have a store in Hong Kong?" These words are still fresh in our memory. At that time, our only focus was simply to trust that the spray would be the most time-saving product, which would help our friends to get the healthiest and most beautiful skin. With this in mind, disregarding all hardships, we stood by our guns and never gave up. Eventually, we opened up the Hong Kong market, and today, it continues to grow.

The most challenging part of the business is not people's refusal or misunderstanding. It is whether we want to change our lives around to fulfill our dream. Through the training system of YiJia, from their unique training course to their president class, we learned to manage and lead a team of sixty thousand members. YiJia is a company that focuses on the individual and its willingness to give back. The more you give, the more you gain. The wisdom of YiJia is to keep things simple and focused. No matter what happens in your life, just focus on sleeping, eating, and working on your YiJia business and repeat this day in day out. With this philosophy, we were able to reach our goal of being Triple Crown Ambassador and also can support our members to reach their goal of being crown ambassadors. Our willingness to change, our working ethics, and our global members who share our philosophy and believe, all these enabled us to attain this lofty achievement.

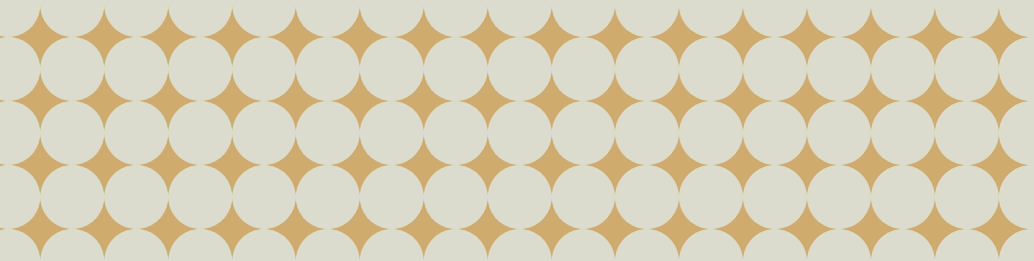

Lawrence Yip

Ever since I was young, my parents are always very supportive and took very good care of me. They taught me right from wrong, to be a good citizen. They never expected me to be rich and just want me to be happy and be able to realize my dreams. Though my family was not rich, we did not lack for anything. I have a warm and carefree life. However, all through my life, I always remind myself that one day, I will become an upstanding and successful person to repay my family and their love.

Today, I am the youngest Triple Crown Ambassador at YiJia. I am very thankful to Angel for introducing me to the Company. Along the way, I never slowed down for even a day, because I know there is still a distance from my goal. I will do my utmost to achieve my dream. With low expectation and high commitment, I will go full force towards my goal. I am very aware of my decision and aims - I want to be a role model for all young people. No matter how difficult the journey will be, I will continue with this goal. All my trials are just part of my journey that teaches me how to overcome difficulties and become a stronger person. Success is a function of persistence and willingness to work hard. God will not punish hard-working folks. Trust that you will be a leader, and be able to lead a team to win battle after battle. "Play to win" is the attitude to success. There is no definitive win or lose in life. Only with the will of winning every battle, we can gain fruitful achievements.

In the future, I will continue to do my utmost to help my fellow members of YiJia to attain their life's laurel and to realize their dreams. All teams will achieve higher and higher goals to reach our ideal vision.

Carroll Liu

Before I was aware of YiJia, I was in the financial insurance industry for 16 years. In 2013, before YiJia entered the Taiwan market, a friend recommended MAIONE to me. Upon further understanding of the products, I flew to Singapore for further investigation. I discovered that it is a revolutionary explosive product. YiJia's unique business model and superior products that produce exceptional results make me resign from my job and devote my entire focus on promoting the YiJia business.

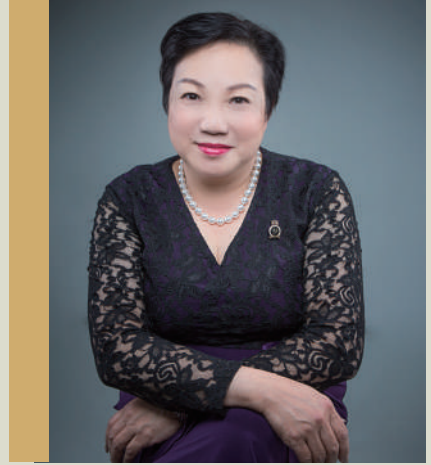

Five years ago, with no office, no resource, I started doing the YiJia business from scratch. With the idea that nothing is impossible, tenacity and perseverance, I performed many market miracles. Upholding the idea that "there are no perfect individuals, only a perfect team." I led my team to learn and grow, be grateful, and be supportive of each other and became a team that is more understanding of each other and have a better relationship than with our own family. This is love. I always encourage my team that "at YiJia, first you have to be an expert." To succeed in a business, one has to understand the product, believe in the company, and importantly, believe in yourself. Face difficulties with 200% confidence in yourself, resolve problems. Don't be a salesman; be a happy sharing partner. At the moment, our team has over 20 members who have received an income of 10 to 17 millions. Our team members enjoy their work, sharing their wealth and spirit.

How do you become an expert? The fastest way is to follow the training program of the company to increase your business skills and practical experience. I am most grateful to God for arranging my meeting with YiJia, loving YiJia, enjoying YiJia. Grateful to Chairman Guo for establishing this dream-fulfilling platform, so that I can live a more valuable life. I am so proud of myself for every step I took, profoundly aware of the fact that "to help others succeed is the best reward."

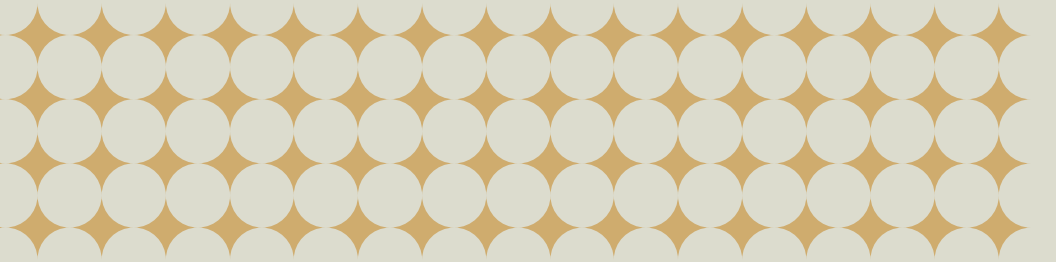

May Mama

In order to support my daughter, Angel's career, I returned to the workforce and joined YiJia's Beauty and Love business. The company has an excellent system, and the members are able to become distributors in many countries. During my four years of developing the business, my team and I had come across many bottlenecks and got stuck now and then. However, all these challenges enabled us to be united, stayed our courses, be harmonious, and fulfilled our duties. Eventually, we obtained brilliant achievements in Hong Kong and became a role model for all the other teams over the world.

Thank God for giving me three incredible children so that we can be together and work harmoniously. To me, I hope to be able to help a lot of people around the world through the YiJia Platform. I am blessed that I can meet so many people who speak the same language. YiJia is a global organization developing many overseas markets. The company rewarded me with many free travels, and I was able to go around the world to observe and study, and to enjoy myself while working. YiJia not just nurtured our individual growth, it also provided us with considerable income. As a result, we are incredibly willing to contribute. It's better to give than to receive. For this, we received blessings and pleased the Lord.

I cannot convey my eternal gratitude to YiJia in a few words. Not only changing the lives of my entire family, most important of all, is our relationship become closer and more loving to each other because of working together. My thanks to God's given grace. My thanks to Chairman Guo. My thanks to the management and staff of the company and my thanks to all members. Here is wishing that we all remain true to our original aspiration, look forward to the future. Let's all soar up higher and higher for a brilliant second act in life.

Candy Wong

By chance, in 2016, I encountered YiJia and MAIONE. The future and mission of YiJia fitted seamlessly with my vision of "helping others is also helping myself." Its excellent products are ingenious, and its business concept is innovative. As a result, I decided to leave the comfort of my home life and venture into the world of YiJia, starting an incredible and dream fulfilling journey.

After entering the big YiJia Family, I stick to my belief to work hard, plunge ahead, always exceed my own expectation. I lead my team from nothing to plentiful, from plentiful to excellence. I became Crystal in 4 days; Pearl in 20 days; achieved Sapphire after 77 days, and Ruby in 6 and a half months. In 10 months, I was promoted to Crown Ambassador, Double Crown Ambassador in 11 months and in 14 months, Triple Crown Ambassador. Right from the start, I already have a very strong sense of mission that I can use my achievement at YiJia as a good example to encourage my team members, give them the self-confidence to follow my footsteps to develop YiJia business further. I have proved to them that only if they find the right platform, simply continue to achieve and move forward, can even such an ordinary person as myself succeed in YiJia. I love my family, and my fellow team members are like my family to me, too. There is no hierarchy in the system. Watching them succeed is more fulfilling to me than watching myself succeed.

If you count your blessing, you will be more blessed. I am most grateful to have met YiJia, a global organization that makes dreams come true. It gave me the chance to fulfill my dreams and changed my life. In the coming days, I will help myself and others to attain higher goals, using my life to influence the world, help more people who want to succeed to accomplish their ambition. Together we are the proud people of YiJia.

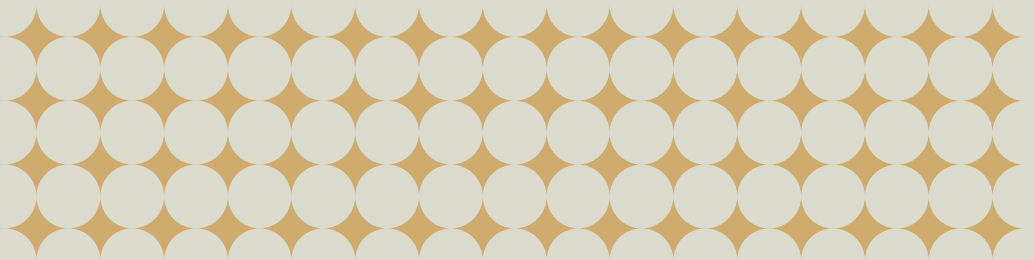

Gingko Chan

In January 2015, I met Angel, the first Triple Crown Ambassador, and had my first encounter with MAIONE. The product is exceptionally brilliant, but I did not take that opportunity to embrace it, nor did I join Angel's team. I just used it as a means to earn some spending money. 19 months later, my lovely daughter was born. The expenses of my family and the beauty school were huge. Luckily, Angel did not forget me, even though she was already very successful in the business. She encouraged me to join her team and explained to me the beauty and love concept of the YiJia business. That day's decision helped me to achieve my success today. After I joined the YiJia family, I decided to get back my 19 months of missed opportunities. I embraced the team's culture of no accusation, no complaints, forever grateful. I learned to believe, to obey, to follow the company training program and grew. I helped my team members to achieve success. Finally, in 19 months, I have developed a team of over 10,000 members, with over 200 direct sponsors, and I became YiJia Global Triple Crown Ambassador. Besides a weekly salary, the global fund is a surprise. Because of YiJia, because of MAIONE, my life is no longer ordinary.

I am grateful to learn strength in time of depression, humility in time of success. I cherish all that I have, help those who lost their dreams to regain them, to prove the value of life. These are what I have learned in the YiJia Family. In the future, I will work harder, promote the vision and mission of the company, and reach for the top with my fellow team members.

YIJIA

**TRIPLE
CROWN
AMBASSADORS**

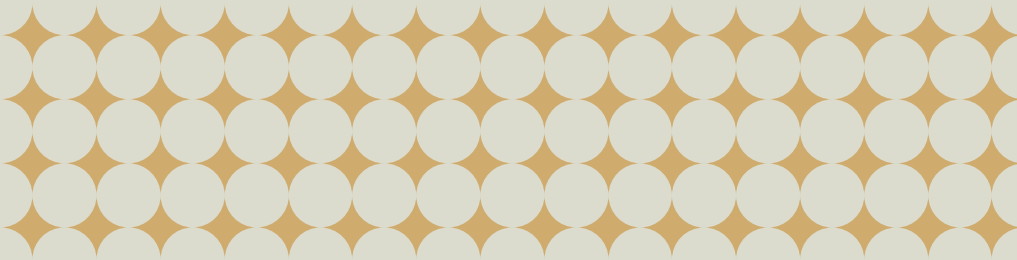

Patrick Kwok & Zuki Wong

It is a miracle that within three years after joining YiJia, we became Triple Crown Ambassadors, the highest ranking at YiJia. We traveled with the company for nine free trips. This proved that the ability of our members has highly improved and our wealth has increased. We are so impressed!

Four years ago, we were always searching for opportunities to invest. We tried investing in a lot of different businesses and the stock market. In the end, we failed miserably until we found YiJia. After joining the company, we were able to go from having negative assets to be in the positive. We were able to fulfill a dream of being property owners, having our own home, and cars. By staying in one company, I never dreamt of being promoted this fast within a year. This is so incredible! There is no perfect Individual, but only a perfect team. We are grateful to our benefactor, Angel, and the Yips, the Triple Crown Family. Thank you for your support and encouragement. Super thankful to our team. Without their hard work and great effort, there won't be this "us" today. Thank you to all members for staying together. It is your trust that helped us grow. The honour belongs to everyone! Suki and Patrick are not perfect. Thank you for your tolerance, love, and support.

Super grateful to Chairman Guo for his mission of "to help others succeed by nurturing the spirit of entrepreneurship; leaving a legacy of success for the next generation, always standing together with love!" to establish the global platform of YiJia. It has an abundance of possibilities to make dreams come true. If you take the first step, follow the company training program, your dreams will come true in no time. Set your target and follow through, and miracles will happen. In the future, we will continue to develop our Beauty and Love business at YiJia. We will lead more members towards becoming Crown Ambassadors and help them to achieve their dreams. We will work towards helping YiJia to go worldwide and operate for hundreds of years.

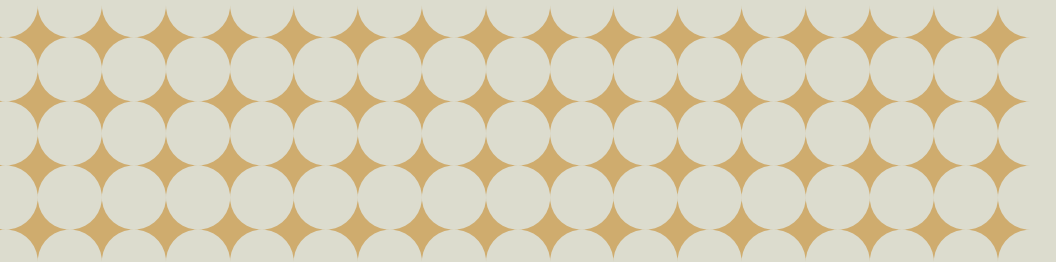

Jennifer Li

Ever since I have my own family, I wished that I can give my child a happy childhood, send him to an international school for a different kind of education. However, for an ordinary family, school fees at international schools are unattainable, and that is why I was always looking for a chance to change my life around to be more luxuriant. By chance, I found MAIONE on social media. Since its products have excellent results and behind them is a great business opportunity, I decided to start my YiJia business. Even though I have no contacts, Mama May trusted in me, supported me, and encouraged me. She was always by my side, working together with me. She concentrated on selling mostly to her friends, whereas strangers were my main clients. This way we worked in concert and step-by-step we progressed. We started with a small group of four and a business conference group of three people to over 7,000 team members today. This success and honour are due to the leaders and the members of our Amazing Team. Thank you for your trust and obedience. It confirmed that there is no perfect individual, but only a perfect team.

I am grateful to Mr. Guo, the Chairman, and Mrs. Guo, for creating the dream platform of YiJia, through hard work, even ordinary people can have extraordinary lives. It enabled a shy and insecure woman to have a breakthrough and changed her life around to realise her dreams. From now on, my mission is to continue helping my fellow members to accomplish success; support others as I support myself with love. Together we will escalate higher and higher for a better tomorrow.

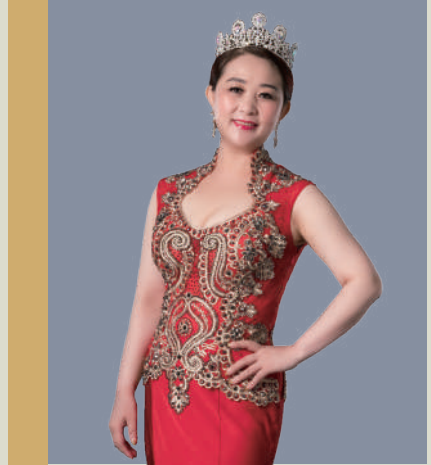

YIJIA

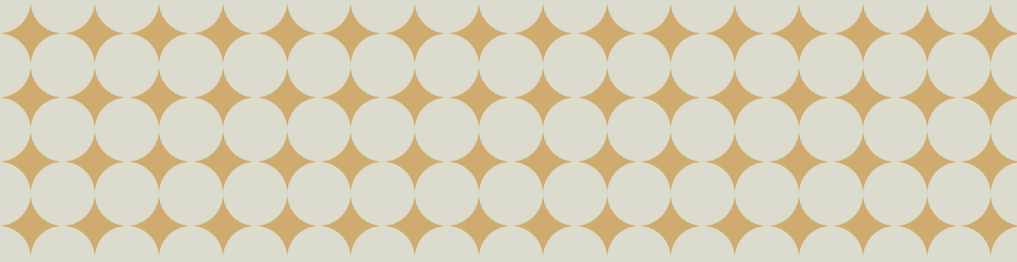

**TRIPLE
CROWN
AMBASSADOR**

Xuelin Bai

I used to sell medical instruments for over 10 years and was introduced to YiJia by a client. At first, I only used the products myself and found them very beneficial. The result was obvious, and the application was quick and simple. After being a user for a year, I decided to become a distributor at YiJia. I went to Taiwan to develop this new market. Within one short year, I got positive results and established a team. In two and a half years, I became Taiwan's first Triple Crown Ambassador, trained two Double Crown Ambassadors, two Crown Ambassadors. In three years, I nurtured additionally two more Triple Crown Ambassadors, and two Double Crown Ambassadors. Such an impressive result is all due to YiJia's philosophy of "simplicity, trust, obey and follow" as well as "work hard, persevere, be persistent and follow-up." Most importantly, trusting the Chairman and Mrs. Guo's excellent character and their diligence in developing the business. Their industrial strength and effort deserve our admiration and praise.

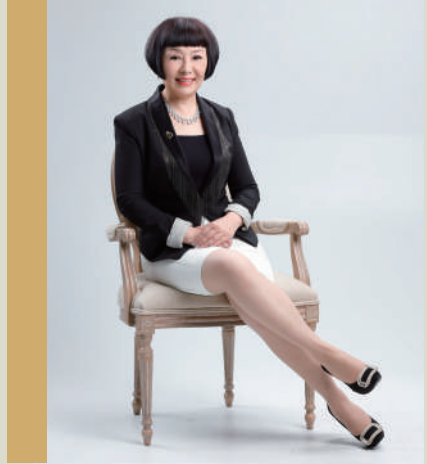

Emphasize on "I am willing" is the greatest driving force, because if you believe, the know-how will come naturally. At each stage of your development, remember Chairman Guo's words of wisdom, "self-review, improve yourself, stay true to our original inspiration." With this concept, I'm committed to sharing the products, develop the market, donate to charities, and lead a strong and cooperative team. Have a common target, joint action, and most importantly, an honourable splendid family and friends. We all have grown our inner strength and outer appearances. We have to be grateful because YiJia provides us a dream fulfilling platform for success, especially for those who have no background and no connection to realize their dreams.

**TRIPLE
CROWN
AMBASSADOR**

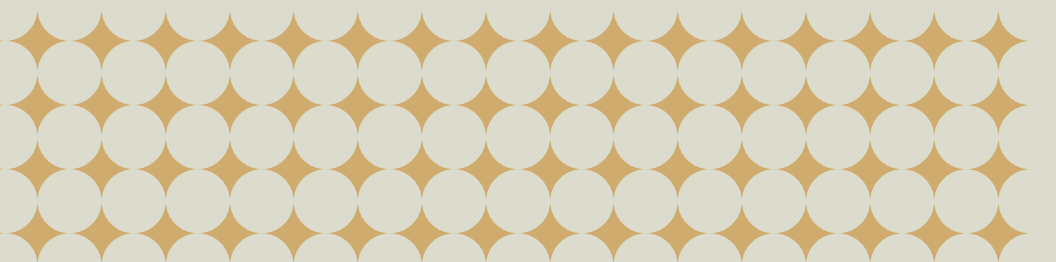

Cherry Qi

After immigrating to Canada, I was constantly looking for a new opportunity to start a new business of my own. Until I met YiJia, it gave me a sense of belonging. In 2016, I met YiJia by coincidence. Its MAIONE products are unique with incredible results, and I quickly became a consumer. After using the products for over 20 days, I was amazed that my face improved dramatically. YiJia's worldwide profit-sharing idea caught my eye. After vigorous researches, I from being just a consumer became a distributor. I devoted entirely to the YiJia business and established the Crown of Canada team.

Success has its cause and effect. It is like a flower in bloom. My personal bloom leads the team's bloom. I firmly believe that my personal success needs the support of my team. That is why I have the responsibility to help each and every member to succeed. At the same time, team members should influence and stimulate each other's capability. One can only win if the entire team won. I brought my team members into the business, and I have the responsibility to lead them towards success. Being studious is important, but most important of all is the ability to make the right choices. I chose to enter the brilliant YiJia platform and led my team to all our successes. The platform changes lives, and the system changes destiny.

A Chinese maxim says, "By 50 we will know our destiny". I am over 50 now and had gone through many ups and downs. And soon, I found peace and harmony, and I can understand the reality of life. Being a woman, the best security is to depend on her own strength, be independent in business, be financially and spiritually independent. Thank YiJia for enabling me to rediscover my youth and vitality and to become my best self.

YIJIA

**TRIPLE
CROWN
AMBASSADOR**

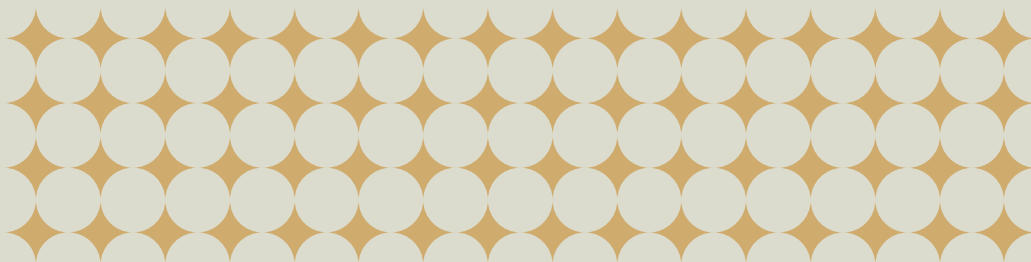

Amy Zou

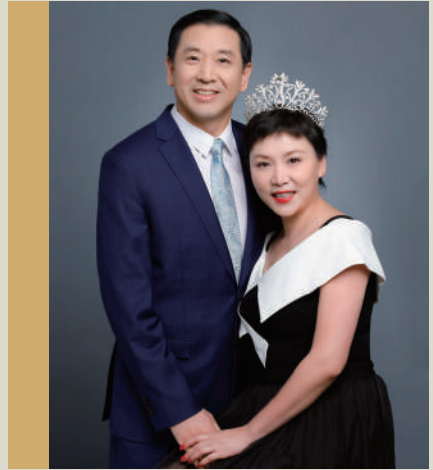

People who know me notice that I had been searching for a better way out all my life. Over 20 years ago, during a trendy wave of going abroad, I followed my dream and came to America. Since I did not have much education, could not read or write English, it was difficult for me to find an ideal job. Gradually and diligently, I worked my way up. To others, I seemed to have accomplished well with my courage and perseverance. But I always believed that chances were for well-prepared people; so, I never gave up any opportunity to succeed.

Fortunately, I was introduced to YiJia's MAIONE products. After using the products and upon further research, I was confident that the company and its products had unlimited potential. Without hesitation, our family of three joined YiJia. Undaunted by fear and challenges, we achieved incredible results, proving that my initial finding was correct. MAIONE not only made me beautiful but also provided my family with a steady income. It gave me health and helped me grow, and I also led a team of members who share my vision.

YiJia changed my entire life. Not only at beauty and health, but I also acquired friends from all over the world. I was able to travel to see the world, tasted incredible food and enriched my entire being, and let an ordinary me live an extraordinary life. I am grateful to all the members of my team for their trust, hard work, and contribution. Because of you, I am able to achieve what I am today. My aim from now on is to lead my team members to their success. I will always adhere to the company mission: "to help others succeed by nurturing the spirit of entrepreneurship."

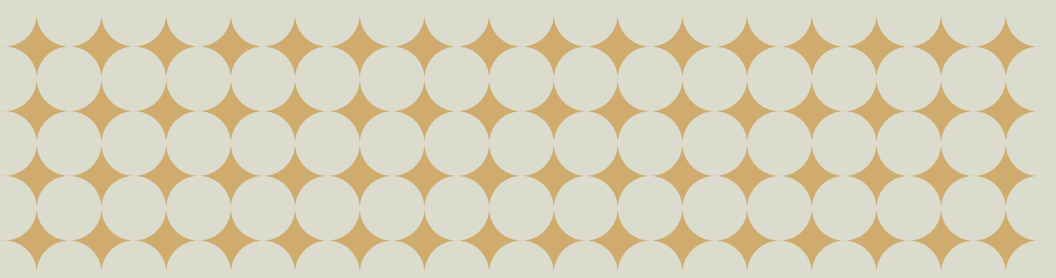

Jie Lu & Wei Liu

When we first immigrated to Canada from Beijing, we weren't happy because we were all alone in a strange new environment. In order to afford a better education for our children, we decided to stay. Luckily, we got to know YiJia. Our children were very well adapted to their western lifestyle, so we decided to operate a business at YiJia to provide our family with a steady income and live a better life.

YiJia is a business of beauty. Its products helped our skin glow and rejuvenate, and its continuous training program helped to give us a disposition with more sunshine. Most important of all, we found our happiness and a sense of belonging. I used to work in the investment industry before many years, and at YiJia, I earned abundantly as well. Chairman Guo's mission of "to help others succeed by nurturing the spirit of entrepreneurship" taught me a lot of skills in business management that I never knew. He advocates that one should seize the moment, enlarge one's scope, and keep learning. This is a great theory to ensure success. My understanding of the company mission is: we have to succeed first before we can help others to succeed because the power of setting a good example is endless. To be a role model for others is the way to lead. Challenge yourself to create endless possibilities.

Since we decided to stay, we might as well make life work, maintain our humility and self-motivation. We are the witnesses of YiJia's brilliance, great structure, and future. We fervently wish that we will be able to make our parents proud, even though they are not by our side. We hope that we will be good examples for our children and will achieve success before they are all grown up. We earnestly wish that we will be the reliance of our spouses. Because of love, I don't dare to grow old. Only if we succeed, we can help others with the same ideal to succeed. We are grateful to YiJia for establishing a platform to make dreams come true. We will use our strength of belief and perseverance to turn dreams into reality.

**TRIPLE
CROWN
AMBASSADOR**

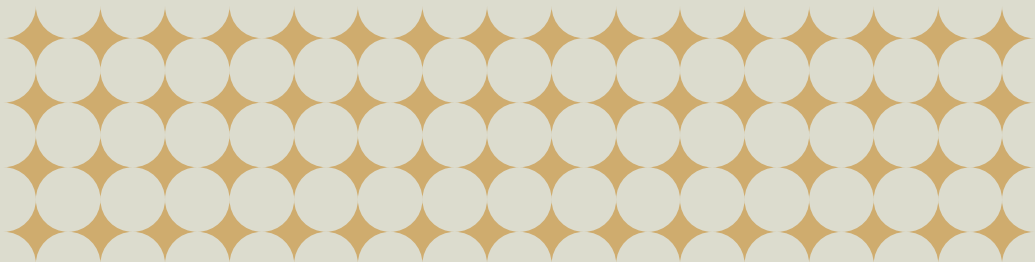

Connie Chong

YiJia is a company that helps itself while helping others, using love as their underlying philosophy, supporting each individual to grow their business. Most members found YiJia online to start their beauty and love business, but strangely, I found it through social media. Attracted by its advertisement, I contacted them on the phone. After understanding YiJia's business concept, I have a feeling that "An opportunity is right in front of me now; how I want to be, it's all up to me." Because of the high confidence in the products and the extraordinary future of the company, I joined the YiJia Family. Combining traditional business methods, I hope that I will have more chances to further my goal to success.

"With a clearly defined goal, it is easier for me to have great success." I always want to share the best product with my friends. Keep thinking of how I can help my team members to become leaders in the near future, is like fulfilling my mission for being part of the family. I tried my utmost every day to encourage, to be concerned, to support, and to cheer for this big family because I have the duty to make it better.

Inside YiJia, the personal achievement is not as important as it is to help our fellow members to learn and grow and to increase our wealth. That is true success! YiJia's mission is "to help others succeed by nurturing the spirit of entrepreneurship; leaving a legacy of success for the next generation, always standing together with love!" In the coming years, I will strive to work harder to support my team, encourage them to grow stronger and be more successful, to make YiJia the very best business on Earth.

Huai-i Chiu

I was born in Zhushan, a small township in Nantou, Taiwan. After graduated from high school, I experienced sudden changes in the family. I worked hard to pay off the massive debts for my mom. At such a young age, I learned from the harsh realities of society to be responsible and hard-working. I worked hard for the money and invested in high-risk Structure notes. Unfortunately, I spent at the wrong timing, and I lost a fortune. By learning from this painful experience, I strove to become stronger and opened my own business. Life was so busy that I had four jobs at the time.

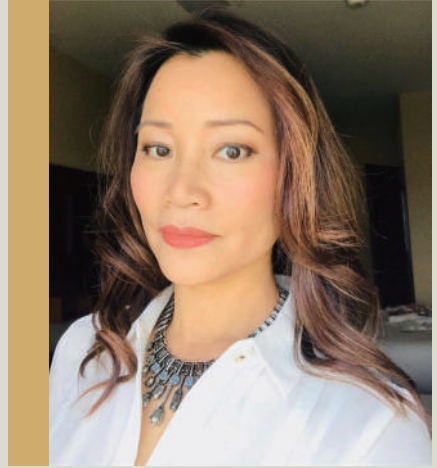

By chance, I encountered YiJia business through Xuelin Bai. I was very impressed by Ms. Bai and Chairman Guo that I decided to quit my own business as well as my jobs, and stayed focus on the YiJia business. I became Crystal in only 10 days, Pearl in a month, promoted to Sapphire in three months, in 28 months, I was the first Double Crown Ambassador in Taiwan. And now, I am a Triple Crown Ambassador as well as a Member of Global Strategy and Development Committee of YiJia. Up to now, our team has nurtured one Crown Ambassador, two Double Crown Ambassadors and two Rubies, over ten Sapphires, over twenty Pearls, and more than 40 Crystal leaders. All of us are making a great effort to achieve our goals through the dream fulfilling platform of YiJia and leading an extraordinary life.

Positive attitude, right decision, and sharp perception are the best portrayal of my success. We have to know how to cherish and appreciate. In the future, I will continue to do my utmost to help my fellow members to realize their dreams and to attain their crowns. "To help others succeed by nurturing the spirit of entrepreneurship; leaving a legacy of success for the next generation, always standing together with love!" We will keep following the YiJia's mission to continue our glorious journey at YiJia.

**TRIPLE
CROWN
AMBASSADOR**

Lien Nguyen

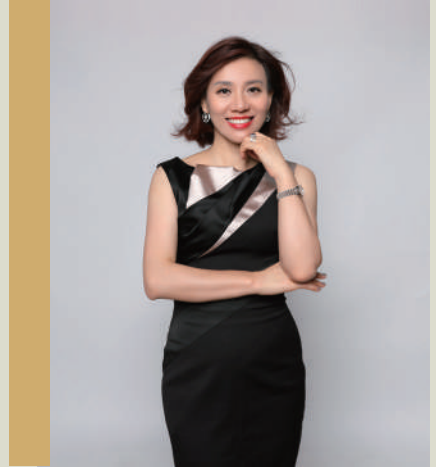

I am from Los Angeles, a mother of three children. I have been in the skincare industry for almost 20 years. Everybody wants to have beautiful skin, and I am sure MAIONE is the most unique in the world. It is highly technologically developed, safe, simple to use in confidence and rejuvenated me to be younger and more beautiful. My skin is tight like I was in my 20s. After I joined YiJia, I tried hard to develop the market using myself as an example. My team members are all over the world in 28 countries, and we are close to 1600 strong. I never thought that MAIONE youth original essence upgraded version has such tremendous results. When I first used it, I was amazed. I noticed that the bags under my eyes eventually disappeared and my facial skin seemed to have tightened. It piqued my curiosity, and through the Internet, I found the information for the company. And from then on, I joined the business. The more I understand the product, the more passionate I am towards developing my business, especially after I put the images of the before and after of using the essence on Facebook and I received a lot of phone calls inquiring about it. I am aware that YiJia truly is an excellent business opportunity. It also gave me the freedom of time and wealth.

I deeply love YiJia. The YiJia family makes me happy. Its staff cares about me. They are generous and kind. They make me feel connected to YiJia as days go by. To me, if you cannot succeed in the YiJia business, you cannot succeed in any other online companies. My MAIONE Viet Global Team and I will in the future bring MAIONE to all the people in the world who love beauty. This is our objective.

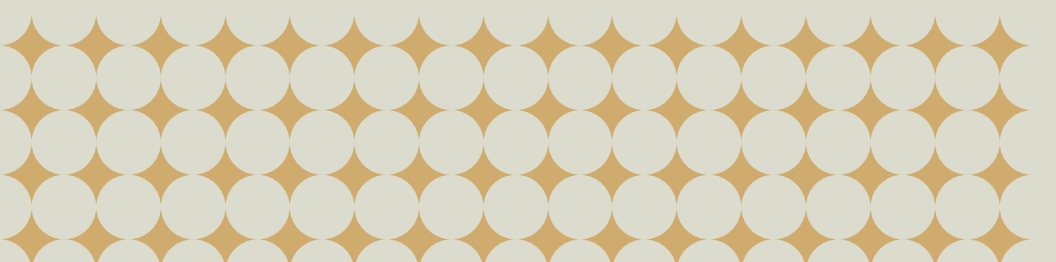

Lydia Tsang

When one stayed in his comfort zone for too long, one seldom wished to leave. For me, it is precisely the opposite. I worked in the accounting field for over 19 years. Even though my position was high, and my income was substantial, I was still searching for a chance to start my own business. An opportunity arose when I met MAIONE. Its products and business opportunity charmed and attracted me. I decided to leave my well-paid job and joined the family of YiJia. Going from a traditional industry to a sales business, from part-time to full time, I strove hard to succeed and eventually became a Triple Crown Ambassador, starting another beautiful part of my life.

On March 17, 2014, I joined YiJia and sold products to my friends at first. I started working as part-time; eventually, I expended my market. After securing the business in Singapore, I started to develop in Hong Kong and Indonesia. In 2015, I began venturing into the United States, organizing sales conferences, rapidly opening that market. I flew very often, stationing at the United States to support my teams. As a result, my North American teams became stronger and produced incredible results. At the moment, I have the honour to be a Triple Crown Ambassador. I nurtured two other Triple Crown Ambassadors, two Double Crown Ambassadors and one Crown Ambassador in the USA. Today, we traverse over 20 countries with over 20,000 members. And we have set distribution centers in the USA, England, and many more.

My success today proved that I made a brilliant choice. The company members and I have similar goals, gratitude, and inspire each other to unite and work as an endless circle. We definitely will create more brilliant crowns in the future.

**TRIPLE
CROWN
AMBASSADOR**

Cash Lu

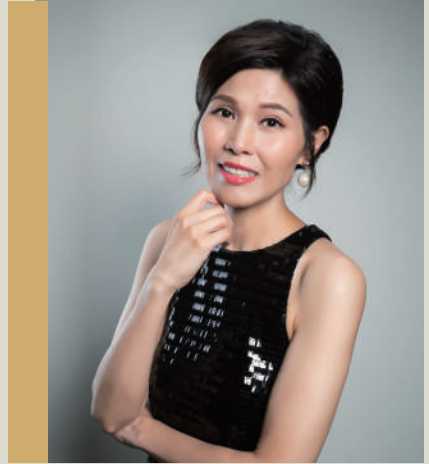

"If you wear the crown, be aware of its weight." The higher your position, the greater are your responsibilities. From operating a small business to joining YiJia, I totally understand this concept. Wearing my Triple Crown today, I completely acknowledge my mission and responsibilities.

To me, Triple Crown Ambassador is not my ultimate goal. My future is miles ahead. I will stand by my gun. Meanwhile, I will firmly do my best to lead my team, nurture more leaders, recruit more passionate members. I will do my utmost to reach for the top. I found that my future still has a lot of responsibilities and work, including nurture more members, experts, and leaders, and this is my wish as well. Moreover, I have to consolidate my teams' coherency, reinforce our communication. If we share the same values, goals, and believes, we will be able to traverse all problems and challenges. I will never give up and do my very best to move forward. At the moment, my teams are scattered all over the place in the United States, Canada, Australia, Malaysia, and Singapore with over 20,000 members. Joining YiJia is my proof to myself that I had made the right choice. Step by step, I can complete my commitment. I will persevere in fulfilling my aim.

Vannessa Chan

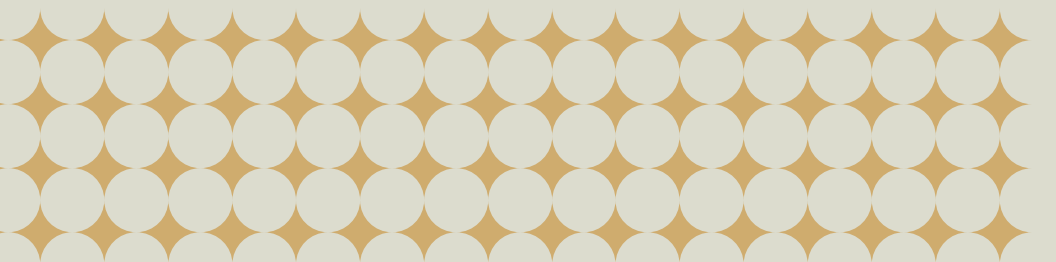

I am grateful to have met YiJia, allowing me the chance to acquire success. I am thankful to Chairman Guo for establishing the YiJia business, a dream fulfilling platform that enables each of us to develop our talent. Success is not just about increasing our wealth. It includes developing self-respect and growth, helping each other to advance and adding to our survival skills.

I had operated my business at YiJia for over two years now, and during those years, there were fluctuations of gains and losses. Some active members quit. For me, at times of difficulties, I remind myself of my reason for joining the company. When you have a clear understanding of your own goal and have trust in your belief, the bottlenecks are easy to crack, and all difficulties will be solved. YiJia is an excellent platform for me to realize my dream. Whatever your background, if you are willing to work and make an effort, you will succeed for sure.

To all the new members who are joining, make your thoughts and action simple, be positive and enthusiastic, believe in your work, and don't give up. This way, every one of you can have your dreams come true. YiJia pays attention to the entire development of their members and respects our suggestions. We can easily achieve the goals of the company, enjoy free trips and a good life. You can see how the company rewards and loves its members.

Thank you to all my team members for supporting me, trusting me, and staying together with me all these years. I'm so blessed to have you. YiJia is growing rapidly and becomes more mature. In the future, we will follow the development of the company, seize all opportunities, and help more members to accomplish their dream for a better life.

**TRIPLE
CROWN
AMBASSADOR**

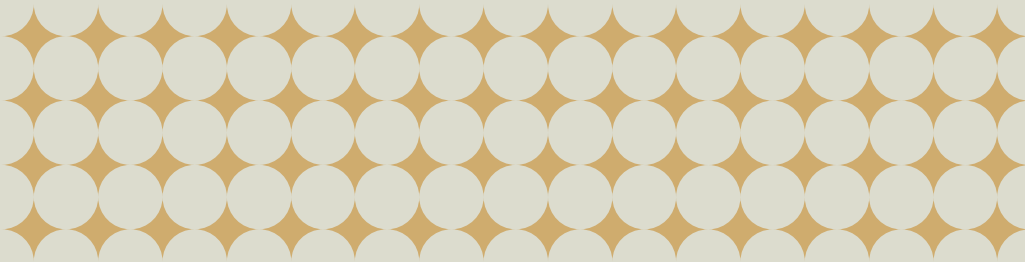

Cindy Lin

When I was just a simple young girl with a few years of education, I had a dream of going abroad. So, I came to this multicultural country called America. As I only had a little knowledge in English, it was difficult to break into the general local workforce. I worked at a Chinese garment factory for over 22 years. The laborious and tedious working condition was incomprehensible except to some fellow immigrants.

By coincidence, I met YiJia, and it's the first time I ever heard of "one bottle of spray can replace five other products." I was very curious and bought one for myself. From simply believing and using the product, I was pleasantly surprised. After using it for about two months, I found that the spots on my face had faded, but best of all was that my sagging face started to tighten, and gradually, I looked pretty again. I firmly believed MAIONE could make a significant change to all women who love to be beautiful. Out of my expectation, men enjoying MAIONE as well. From all these confirmations, I could see that the future of YiJia is bright and promising. It was really a rare business opportunity. I gradually saw the change in myself and had trusted YiJia more and more.

Within two years, I rose to the highest level of my achievement. Throughout this journey, I remained practical, and I worked and lived with gratitude in my heart. I deeply feel the love of YiJia, and extremely touched by the words of Chairman Guo, "To help others succeed by nurturing the spirit of entrepreneurship; leaving a legacy of success for the next generation, always standing together with love!" My motto is, "Stay on your original goal and give it your all." I will remain positive and keep creating more miracles at YiJia.

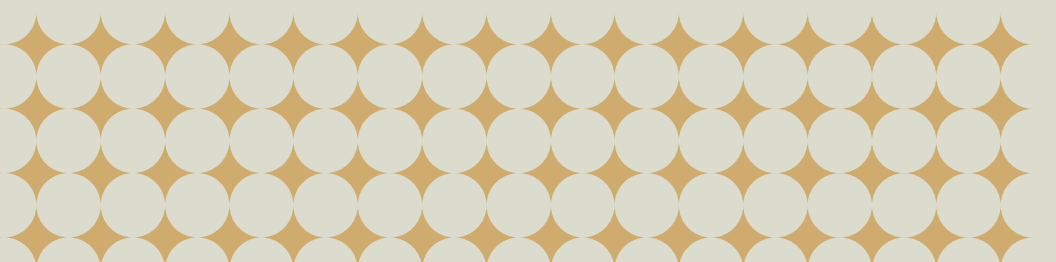

Hong-wei Fu

I came from Sichuan, Chengdu, and worked for nine years as a kindergarten teacher. 21 years ago, I got married and moved to Taiwan, living a happy and contented life. It was a joyful life with no worries. I had no concept of running a business until 2015 when I came into contact with YiJia. That year a friend of mine visited Taiwan for a medical check-up, and I met Mr. Qiu Huai Yi. Upon his recommendation, I started using MAIONE. At first, I just loved using the products, never thought of being a distributor until my friends were praising my appearance.

In the past four years, I evolved from being an ordinary person to becoming a global Triple Crown Ambassador. First and foremost, I am grateful to our leaders, Ms. Bai and Mr. Qiu for their patience, support, and leadership. Also, thanks to the company for providing training. By the principle of simply believe, follow and unremitting efforts, I advanced from Crystal to Pearl, to Sapphire to Ruby and then to Crown. Every day when I wake up in the morning, I am so grateful, and I kept reminding myself to do well. No matter how hard it is, I will do the utmost to achieve my goal to prove that I have confidence and strength. At first, my husband opposed me to do the business until he saw my change and improvement. He gradually understood the benefit of my business at YiJia. Thanks to the teaching and training of the company. It benefited my growth, which is more important than my monetary gain. It helped me develop from a housewife to YiJia's Triple Crown Ambassador, an unattainable feat in other places. Through training, I transformed from an outsider to an insider, from a novice to an expert and finally a winner. And I am now a leader, leading my troop to battles. There is no perfect individual, only a perfect team!

"Enjoy work, enjoy life, and spread the mission of YiJia." That is my best life reflection.

YIJIA

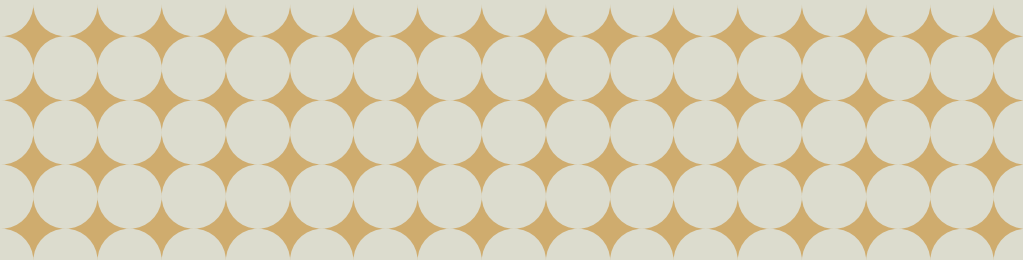

Dennis Tan & Alice Yong

We had encountered many frustrations before we joined YiJia, but this experience never dampened our dream of having our own business. By chance, we came across some products of YiJia which sparked our interest and finally turned our lives around.

In November 2014, a friend introduced us to MAIONE and YiJia. After trying the products, we were amazed by their attractiveness and superior results. During our labourious journey, we experienced many difficulties and challenges, but we were not afraid. We dealt with each problem as it came with a positive and optimistic attitude. Communication is one of the best ways to solve problems. Open up about your problems to others and brainstorming is a good way of generating solutions. Self-confidence and a positive attitude are the outcomes from the spiritual lessons that let us face all adversities. In the time of challenges, calm down and try to look into the problem and find a solution. That way, every time there is a problem, it will become the beginning of a new possibility. We started from zero, so we know we can conquer all our challenges and overcome all our difficulties with no fear.

Our success is due to our own strong conviction, belief, and never give up. To stay successful in YiJia is all because of our unwavering determination to fulfill our dreams. Because of the responsibility to our members, we will never give up. Our strong belief and sense of responsibility lead us to fruitful results and a new beginning. We wish to lead more members to fulfill their dreams.

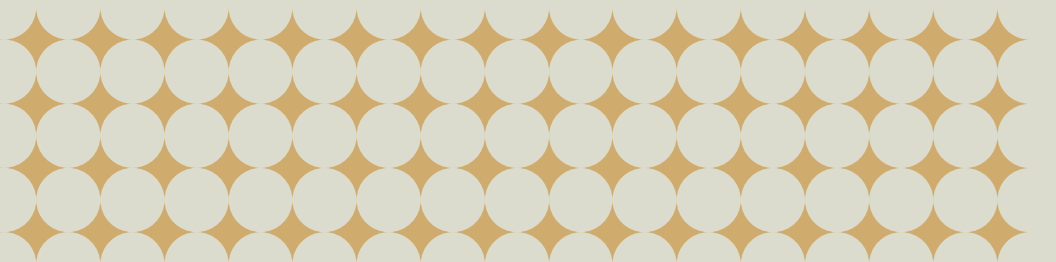

Jennifer Tang

In order to ensure that my life has more stability, I left my comfort zone to look for more opportunities and kept improving my self-worth. After years of searching, I found YiJia in 2014, my Mr. Right. With endurance and hard work, I fulfilled my dream at YiJia.

To me, meeting YiJia is an ingenious coincidence, but to actually decided to join the company is because I trust their products, especially for their attractiveness and efficacy. YiJia products are all made with natural ingredients which suit both men and women and are very safe to use, I feel fully confident to promote them, I observed that our skin had improved gradually after using the products. Moreover, the training programs of YiJia helped me grow externally and spiritually. During all the company meetings and activities, I was able to be a speaker. This boosted my confidence and self-worth. I learned a lot of new knowledge, and my maturity enabled me to start up more teams and markets. I never give up when there are barriers. With the determination to make dreams come true and with a positive and optimistic attitude, I can continue to move on and keep winning the battles. I will stand by my gun. Keep creating possibilities and will continue to communicate with a lot of friends and to learn from each other.

Other than my personal success, I will use 200% of my ability to help and nurture my fellow members. YiJia motivated me to use my full force to expand my business and to build my own kingdom.

**TRIPLE
CROWN
AMBASSADOR**

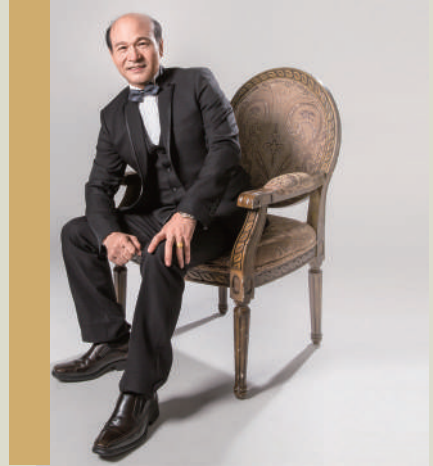

May Lee

Before YiJia, I had a stable job as a teacher. But because I wanted to follow my dreams, I quit it to start my own business. A neighbour of mine introduced me to YiJia and totally changed my life. From being a traditional teacher to a businesswoman with no experience and people connection, I started from scratch. Due to my sense of sharing and trying new things, my initial attempts brought me immediate success. Every successful person has her own cause of action forwards a different path. My key to success is to persist in promoting vigorously the products through social media, like Facebook, and to update all the new company policies immediately. I am very active on Facebook and keep uploading many photos of myself and all the leaders. In 2017, when the company released its new policies, many people posted on my Facebook page to voice their opinions. Realizing my immense popularity, I seized that chance and devoted myself entirely to the forum.

During my hard work at YiJia, I realized the possibility of creativity, never give up, and to change. I firmly believe that Chairman Guo created this platform for ordinary people, and this power to believe allowed me to continue my strive. If I continue to pass on the mission of Chairman Guo, we can help a lot of people. From the start to my present success of reaping my harvest, it is all due to the nurturing by YiJia. That is why I have to strive to be a good example for the company. I have to take myself seriously, for I am a representative of YiJia. My success is afforded to me by my fellow members, and I have the responsibility to lead them towards success and never forsake them. Like what Chairman Guo told us that there are many people following us, so we have to lead them towards their dreams. At YiJia, I found my "golden rice bowl" from being an ordinary teacher to a global businesswoman. I will continue fulfilling my dreams.

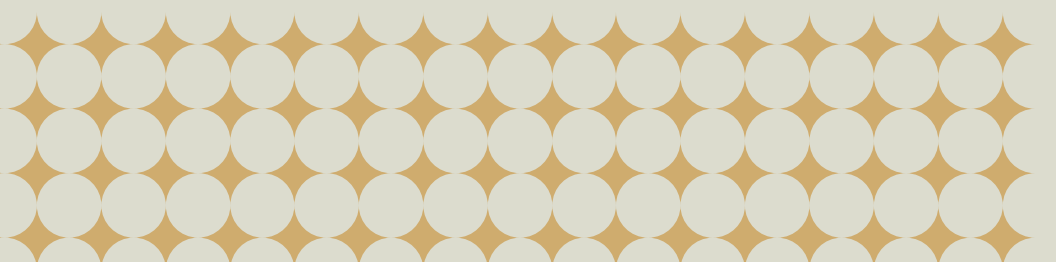

Hung-chang Chen

Before I turned 54, my jobs used to be labour and artisan work. While devoting my all to them for years, I developed some health issues. I lamented that though I spent half of my life working hard, I didn't receive what I deserved. Although the days had been hard, I had never given up my dream to succeed. It was not until four years ago that my friend recommended MAIONE. After trying for a few weeks, I was very surprised how effective the product was. It was simple to use, as well. After careful consideration and evaluation, I felt that there's business potential. I believed that I would turn my life around and succeed at YiJia. "If you can't bear the cold in winter, how can you enjoy the fragrance of wintersweets." This is the best portrayal of the road to success. I firmly believe that success is not an incident, and only perseverance will allow you to succeed. I always tell my teammates that, "If something is right, keep doing it." "If you practice enough, the stage will one day be yours (a Taiwanese slang)." And I promise them that "Wherever they are, wherever I am." I encourage everyone that if the formula of 'efforts + sharing' isn't working for them, then it must be because it's not enough. If you do enough, you sure will succeed.

I still remember what the Chairman said: "If you can earn a million in 2 months, why should you spend 20 years?" His words have changed my way of thinking and goals, and it also proves that at YiJia, if I can't think of something, then I can't do it! I was an ordinary worker, but because I believed in YiJia, followed YiJia, from a person who had no story, I became someone who does. I believe that if I can, everyone else can, too! In the future, we must lead everyone to realize their dreams and achieve a wonderful life!

**TRIPLE
CROWN
AMBASSADOR**

Jesvin Gan

Before I joined YiJia, I was a housewife trapped in trivial family matters with all hopes and dreams buried to the deepest pit of my soul. Then in 2015, coincidentally, I met my benefactor, and I got to know the MAIONE products. They sparked my interest, leading me to venture out to realize my hopes and dreams again.

It was a miracle for me to enter YiJia. I never thought of re-entering the workforce or be a Crown Ambassador in just two years. My success today is not just because I was supported by a tremendous team, my strong belief and hard work were also important elements. It was excruciatingly difficult for me to run a family and a business together, during my journey towards realizing my dreams. In the beginning, I made use of the spare time to communicate with the people surround me, while my children were at school or their activities. I eventually found my way towards building a steady clientele. YiJia not just helped me grow, it also bounded my family together. Besides making money, our family relationship is tighter, and I am able to give my children a more diverse education and set them a good example. During my career, there were failures and frustrations, but luckily, I have supportive friends and family and fellow members who allowed me to succeed. "Do not abandon your struggling colleagues" is my mission in life, especially when now I have achieved my dreams. At YiJia, I never think of financial goals. I only care about the strength and future of my fellow members. In the future, I will devote myself to enlarge the dreams of my members so that they will be able to fulfill their dreams as well.

Jensen Ong & Rainbow Chen

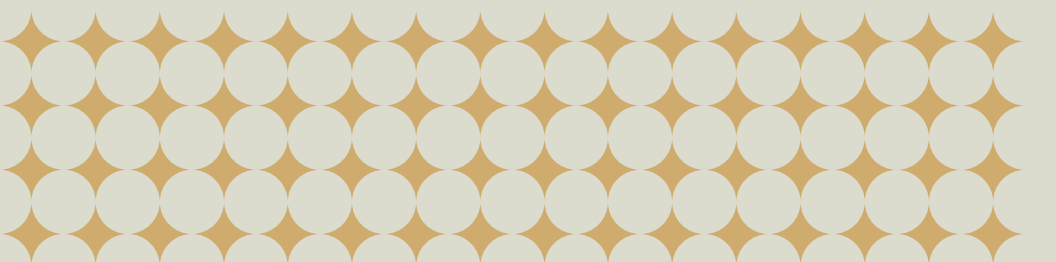

We joined YiJia in 2017. On June 18th, 2018, we achieved Sapphire, when the company opened its branch in Toronto. On our way of developing the market, we encountered various difficulties, but our aim was very clear. We trusted that the YiJia platform could change our life. With our unshakable confidence and staying focused, we developed our future.

I am Jensen. I was introduced to YiJia by Rainbow, my true partner. Being a robust person, I never paid attention to skincare at all, and my skin was rough. I always had a feeling that skincare was just for women, not for men. But after using the Maione products, my skin texture was improved and became soft and smooth. The significant result of the products and the business opportunity sparked my interest. I started realizing that I could be stylish and trendy, and I believed that many guys would have the same thought. Guys also concerned about their appearance, and I discovered the potential of the skincare market for men. Through my personal experience, I will let everyone know that even guys can have delicate skin and can be handsome and trendy.

I am Rainbow. After using the Maione products of YiJia for just a couple of months, my friends and I already realized the dramatic result. They all said that I looked two decades younger for both my appearance and inner self. And I was often mistaken for being my daughter's sister. Unlike the traditional business, YiJia let me operate a business without the time and financial constraints. Other than sharing the products with my friends, I can spend more time to do my favorite things. Before, I had no confidence and scared of standing on the stage to speak in front of people, but after receiving the training from YiJia International Business School, I dare to stand on the scene and tell my team members that "If I can do it, you can do it!"

Life is so sluggish and perplexing if you do not have a job; but once you take the first step to success, the feeling is exhilarating that you will be infatuated with the struggle. Step by step, we will walk towards success.

**TRIPLE
CROWN
AMBASSADOR**

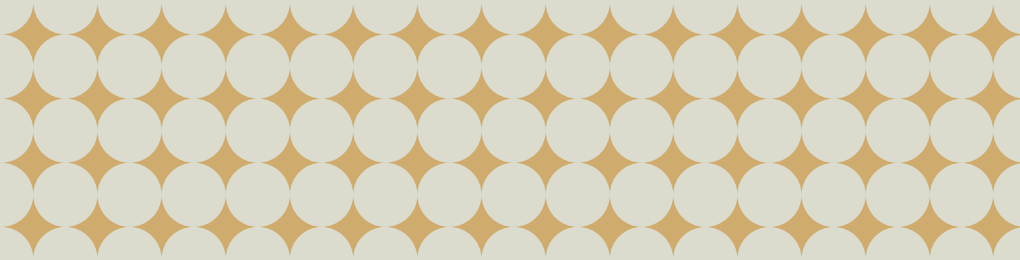

Annie Chow

Change a concept, broaden the world. A person's intellect will support her development. A person's perseverance will support the length of her journey. Thank God for taking me to YiJia, a platform where dreams come true. Thanks to Chairman Guo for establishing this great place to start a business. YiJia's business model, superior products, and education culture let many people realize their dreams.

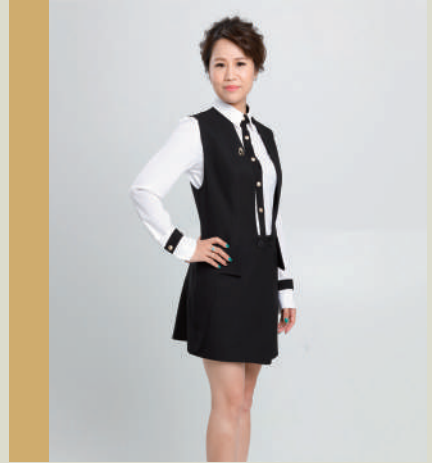

At YiJia, I gained a lot of rewards, especially my growth and my accomplishment. I am touched by all the leaders for their earnestness towards their business, their hard work, stubbornly standing by their conviction to make their dreams come true. This made me realize that nothing is accidental. Only if one works hard can he or she be successful. I enjoy working with the people at YiJia who have the same diligence and intellect like me so that we can all reach an extraordinary goal. With a grateful heart, I thank all the leaders and members who helped me along my way to success, for your tolerance and support. You gave me strength so I can be who I am today.

I always believe strongly that a person has to learn to have self-confidence and love for oneself and to be independent, so as to lead a good life. Personally, I witnessed a lot of members who strive hard to realize their dreams. That is why I wish to help more members to grow. With no regrets, I will do my utmost to help everyone to achieve their goal and success. Disregarding all criticisms, I will follow my own path, adhere to my principle, and continue to work hard to create more possibilities and to support all members to fulfil their dreams fully.

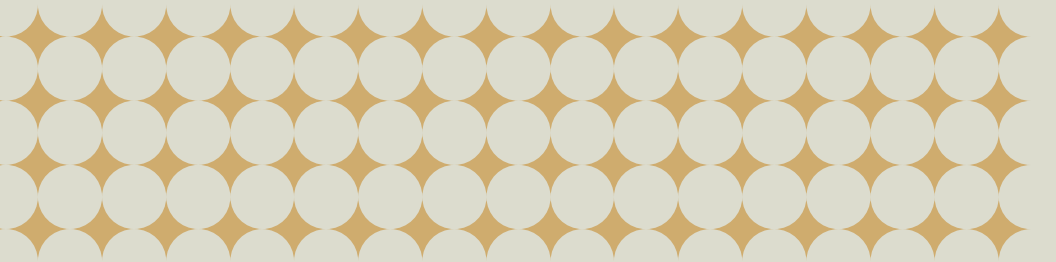

Sophie Zhang

Whether I am in China or Canada, I never give up on finding my own business of beauty. In 2016, I met YiJia. After researching and understanding the company and its products, I realized that this is the business I was looking for. All these years, living in Canada, I got to know many friends who shared my vision, and in no time, all these friends joined me and entered YiJia. We established the Vancouver Super Star Team of Canada. On the very first day when I joined YiJia, I promised myself that either I wouldn't do it or else I should make it my best endeavour.

My father is the most influential person in my life, and in business, it is YiJia. From this platform, I acquired a lot of business knowledge and experienced many trials and tribulations. I am a grateful person. My Chinese compatriots and I left our country to immigrate to Canada, and fate brought us together to work at what we all love and motivates us. For this, I am so blessed. I felt that I had grown up quickly. In two years, I grew into a completely new me. Now I am more accepting of myself, passionate about life, learn to communicate, and understand how to accept others point of view. I am more rational, less moody, more matured, have more self-confidence, and become more responsible.

During my struggle, I led my team to achieve miracles constantly. Together my team members and I coordinate our strengths cooperate and strategize to face all challenges. I have a feeling that I am the world's luckiest team leader. This way, it is really difficult not to succeed. In the future, I will continue to commit to YiJia's mission of "to help others succeed by nurturing the spirit of entrepreneurship; leaving a legacy of success for the next generation, always standing together with love!" and lead my team to greater success.

YIJIA

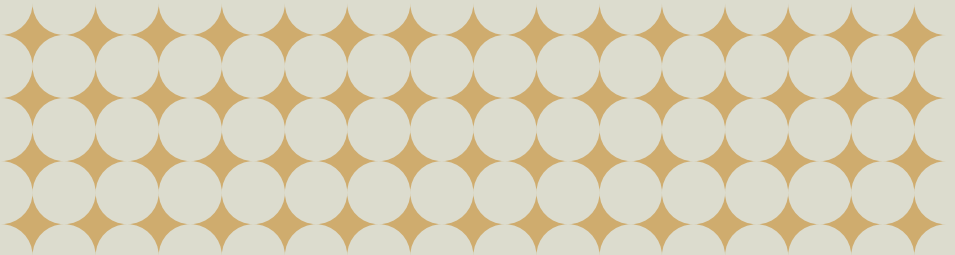

Kat Wai (Xiaohong Wei)

I was an ordinary housewife. Meeting YiJia is the most brilliant event in my life. This lovely meeting turned into a working opportunity and my incredible business.

In 2014, with the recommendation of a friend, YiJia and its miraculous products led me to join the company. My days at the company enriched my experience and patience, and they became my working advantages. My team created 1,000 members in 10 months. For myself, I love to plan ahead. Once I discover a problem, I will try to find a solution right away, so that when something seems to be hopeless, I can turn it around and straighten it out. Before my team gets into a dead end, I will create different possibilities. In the beginning, when I first started my business, I went from Johor Bahru to Penang to search for more market possibilities. I diversified my investment and expanded from South Malaysia to the entire country. From there, I spread overseas.

I focus on my target and go forward without fear. I never like to magnify the problems. Through self-reflection, I will overcome my weakness to achieve the best ME. All through my journey, I only look ahead towards my goal. Challenges are never problems for me. Just aim at a target, know what I want, and I will strive for it. YiJia is a safe platform, and it is a business without pressure. Just follow its procedure, and one will succeed. Not only changing my appearance, YiJia helped increasing my self-confidence, gave me warmth and love from my team by working hard together. The training provided by the company changed my entire being, especially my confidence. My goal will never end. My life has just begun. In the future, I will lead my team to surge out of Malaysia for more success and conquer the world.

**THE NEXT
TRIPLE CROWN AMBASSADOR**

COULD BE YOU!
