# *Youth Original Essence*

Rejuvenating the skin and keeping it young

Keep Age As A Secret

\*Internal information, not external

Tired skin after staying up all night  
Change of seasons  
Day-to-day environmental impact

Skin can become weak and older-looking due to irritation

***Your skin is sending a 'danger' signal***

## ***Symptoms of skin aging***

**1** Increased wrinkles

**2** Droopy skin

**3** Creases occur on fingernail surface

**4** Dull spots

**5** Swollen lower eyelids

**6** Skin turns yellowish in color and hair becomes thinner

The secret to young and beautiful skin

## **Collagen**

As people age, the loss of collagen and hyaluronic acid in the skin accelerates, resulting in a weakening of the skin repair function and breakage of the elastic fibers, causing skin to become dry and droopy

---

The best method to fight skin aging

## **Early prevention + timely supplements**

Nutrition and moisture needed by skin cells

Sufficient nutrition and moisture are the keys to maintaining the vitality of skin cells in a "state of youthfulness"

Therefore, for the anti-aging process, a timely supply of sufficient nutrition and moisture to the skin cells is needed, in order to keep the skin cells full of energy and highlight young, beautiful, healthy and lustrous skin

## ***What kind of nutrition is best for the skin?***

Small molecules that can be absorbed by skin cells

Natural, safe and non-toxic

Stable

# ***Two core technologies***

Peptide chain technology / Fullerene

# Fullerene

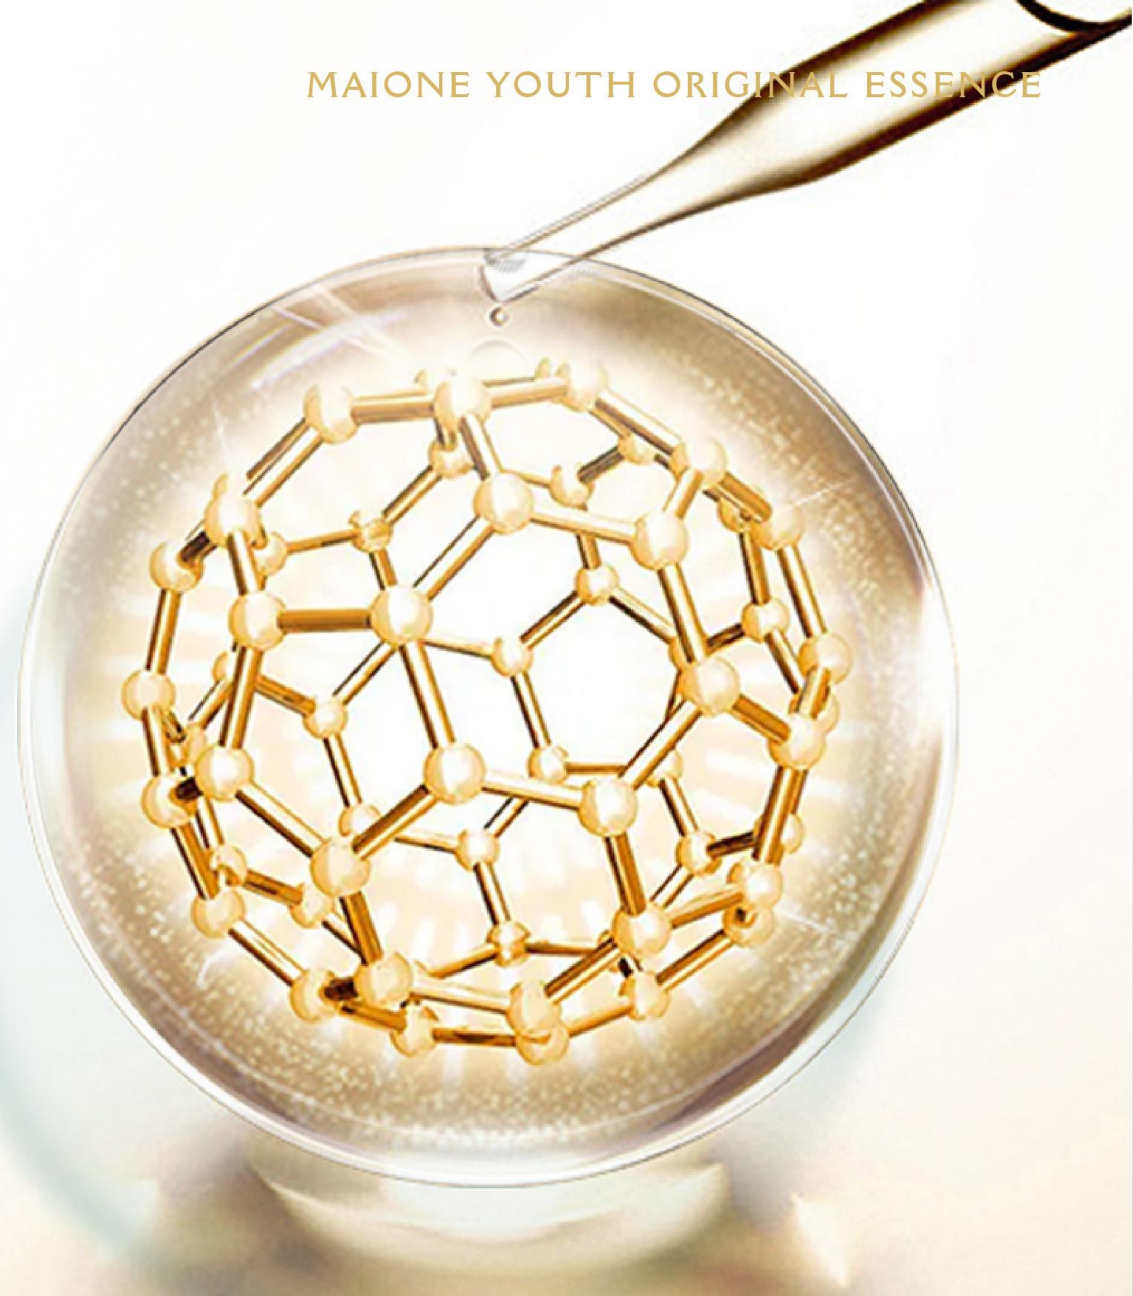

## King of anti-oxidation awarded the Nobel Prize in Chemistry

**172** Its ability to continuously brighten the skin is 172 times that of vitamin C

**150** Its anti-oxidation effect is 150 times that of astaxanthin

**C<sub>60</sub>** Effectively absorbing free radicals with a 60 carbon atom structure

The surface layer of the skin is made of free radicals, and the hydrating and moisturizing ability of fullerene is N times that of vitamin C. It protects the skin in a stable and persistent manner, even under sunlight, and can relieve early aging signs, reduce fine lines, and restore skin firmness

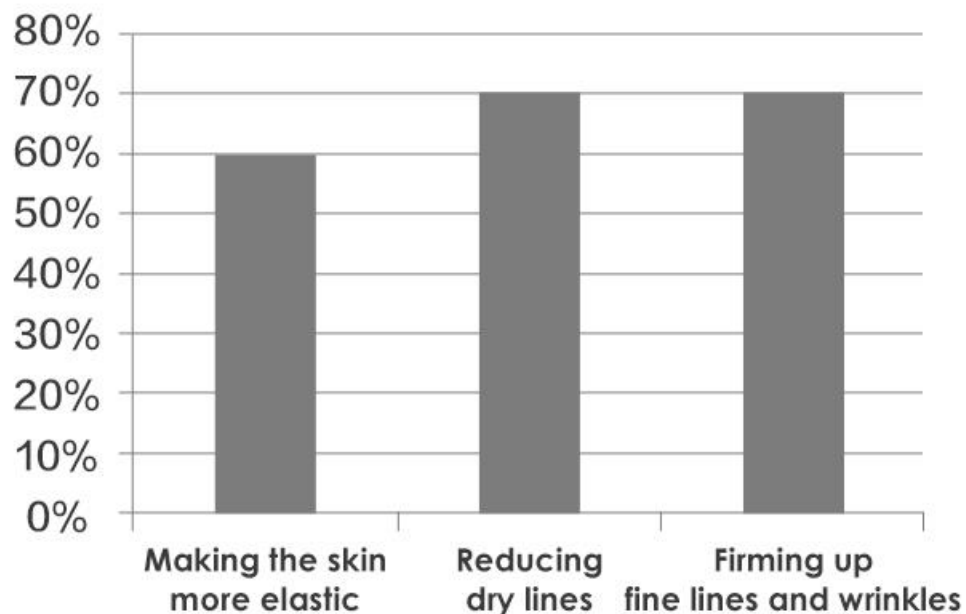

# Peptide chain technology

## World's first advanced technology that works with a single shot

Solving the problems of the macromolecular collagen package having difficulty absorbing, as well as the instability of polypeptides and proteins. It can promote the ability to absorb cellular energy in the deep skin, effectively relieving various skin aging problems. Opening the door of the cells and activating cellular energy.

## Anti-aging - clinical test

Before

After

### Experimental significance:

Observing the effect of 20 women after using the fullerene-containing MAIONE Original Youth Essence for 4 weeks to evaluate the anti-aging effect of fullerenes.

### Experimental method:

Essence for 4 weeks, once in the morning and evening everyday. The obtained data was analyzed by means of questionnaires and photo.

### Experimental conclusion:

Fullerene can effectively reduce wrinkles and restore skin elasticity.
